CHOOSE QUALITY

The RIAL brand has a tradition spanning over 40 years to look back on and is a pioneer in the wheel industry. Because of its orientation towards and specialisation in the accessories market, the company has been able to continuously build up its market position over the last decades.

As one of the leading brands in the most important markets in Europe, the RIAL brand offers a wide range of current designs with the best service and an extended warranty*. Modern manufacturing systems also guarantee quality standards according to the requirements of the automobile industry. This is the prerequisite for supplying the wholesalers and the largest tyre and wheel trade chains. Specially developed and UV-resistant coatings enable guaranteed paintwork with a warranty* of up to 5 years.

EH2+

TPMS

Quality: Our conditions of sale, delivery and payment include an extended five-year warranty.

Durability: All RIAL alloy wheels are independently tested for fatigue strength

Added value: RIAL alloy wheels with an ECE label can be used without additional safety testing or registration with an inspection agency, and can often be fitted using the original mountings.

Safety: RIAL alloy wheels marked EH2+ are suitable for run-flat tyres – giving greater control in all driving conditions.

Peace of mind: RIAL alloy wheels are designed for use with tyre-pressure monitoring systems – both aftermarket and leading OEM sensors.
