New Applications from RIAL®

LUCCA Available for Aiways U5 and Volkswagen ID.4

Bad Dürkheim, September 21st, 2021

The LUCCA alloy wheel from RIAL, a Superior Industries brand, is now also available in sizes for the Aiways U5 electric SUV and for Volkswagen's fully electric ID.4 model. This makes for yet another expansion of the RIAL portfolio for electric vehicles.

LUCCA stands for powerful design and sportiness. The 8.0 x 19-inch version of the wheel with an offset of 40 perfectly fits the compact SUV from Aiways, which is sold through the online electronics dealer Euronics in Germany. Customers can choose between polar-silver, diamond-black, or diamond-black front polished paintwork for the wheel.

With its five double spokes, LUCCA can now also lend its style and dynamics to the ID.4 from Volkswagen. This crossover epitomizes modern electromobility and has been named World Car of the Year 2021. RIAL is proud to serve ID.4 drivers with the 8.0 x 19-inch version of LUCCA available with an offset of either 40 or 45. These wheel models are also available in all three paintwork options.
