New Applications from RIAL

LUCCA Available for the Opel Astra-L, Honda HR-V, and MG EHS

Bad Dürkheim, June 2nd, 2022

RIAL, a Superior Industries brand, continues to expand the application portfolio for LUCCA. The popular alloy wheel is now available for three new models at once: Opel Astra-L, Honda HR-V, and MG EHS.

The 8.0 x 19-inch version of LUCCA with an offset of 45 has now been approved for the Opel Astra-L and the Honda HR-V. Drivers of the MG EHS can now enjoy the wheel in the size 8.0 x 20 inches with an offset of 45.

The exceptional look of the five double spokes is just the thing for individualists who value safety but don't want to make any compromises on design. Whether in polar-silver, diamond-black, or diamond-black front polished, LUCCA captivates in all three colors and puts the finishing touch on your vehicle's aesthetic. RIAL offers an additional five-year warranty on wheels with polar-silver and diamond-black paintwork. So nothing more can get in the way of a relaxing drive.

About Superior Industries

Superior is one of the world's leading manufacturers of aluminum wheels for light vehicles. Superior supplies aluminum wheels to well-known automotive manufacturers and is the market-leading manufacturer of aluminum wheels for the accessories market (aftermarket) in Europe.

Superior maintains the leading European aftermarket brands ATS®, RIAL®, ALUTEC®, and ANZIO®. Superior has eight production plants, which are located in Mexico, Germany and Poland. Superior currently employs about 7,600 people worldwide.

Headquartered in Southfield, Michigan, Superior is listed on the New York Stock Exchange. For more information, please visit www.supind.com.
